

# WILDLIFE CHEMICAL IMMOBILIZATION TRAINING FOR ZOO AND WILDLIFE NETWORK

The Elephant, Zoo and Wildlife Team at the College, along with Panalai Animal Hospital, Finch Inject Co., Ltd., the Southern Thailand Elephant Foundation, and Sri Ayutthaya Lion Park, believes it is essential to develop the "Wildlife Chemical Immobilization Training Project 2023" to facilitate the exchange and accumulation of knowledge. This project aims to apply acquired knowledge to practical uses, benefiting academic services for elephants, zoo animal and wildlife and fostering cooperation in related research for interested veterinarians.

## IMPLEMENTATION PLAN:

1. Conduct meetings for knowledge exchange and sharing experiences in wildlife work, especially in the physical and chemical restraint of animals.
2. Divide participants into two groups for training in animal restraint and health examination. The groups will consult on suitable methods for specific animal species and environmental conditions.
3. Meeting to summarize the work, address any issues encountered, and discuss solutions while sharing experiences.

### Program: Round Table Session

• 12<sup>th</sup> November, 2022

- 8.30-9.30 Registration
- 9.30-10.00 Open seminar by Sriyutthaya Lion park
- 10.00-10.30 Anesthetic equipment by Finch Inject
- 10.30-12.00 Wild Herbivore anesthesia experience share
- 12.00-13.00 Lunch
- 13.00-14.30 Wild Carnivore anesthesia experience share
- 14.30-15.00 Coffee break
- 15.00-15.45 Elephant anesthesia experience share
- 15.45-16.30 Primate anesthesia experience share
- 16.30-18.00 Zoo tour
- 19.00-21.00 Dinner Talk

## OBJECTIVES

- To support academic services for farmers who raise indigenous cattle in the vicinity of Walailak University.
- To enhance the skills of veterinary students interested in cattle farming.
- To promote research and development of cattle health care in the indigenous cattle group.

### Program: Field Session

• 13<sup>th</sup> November, 2022

- 8.30-9.00 Registration
- 9.00-11.00 Equipment demonstration
- 11.00-12.00 Group planning for case
- 12.00-13.00 Lunch
- 13.00-16.30 Case anesthesia
- 16.30 Certificate ceremony

## TARGET GROUP:

1. Coordinate with relevant government and private organizations involved in wildlife in Thailand, including university animal hospitals, private animal hospitals, the Department of National Parks, Wildlife, and Plant Conservation, and the Zoological Park Organization of Thailand

17 PARTNERSHIPS  
FOR THE GOALS

A collaborative network was established among the 9 participating organizations to enhance cooperation in the care of animals in zoos and wildlife. Additionally, long-term knowledge exchange plans have been devised and will be implemented annually.

## UPSKILL :

A total of 32 veterinarians from 9 different organizations participated in the training, including:

- 6 from university animal hospitals,
- 15 from private animal hospitals,
- 7 from the Department of National Parks, Wildlife, and Plant Conservation,
- 4 from the Zoological Park Organization of Thailand.
