

# Positive communication about condoms in Nakhon Si Thammarat Secondary Educational Service Area

Sirintra Duangsai and Assistant professor Kamlai Somrak

Youth aged 10-15 years are the main target group for promoting condom use seriously. If youth 10-15 years old receive positive communication to promote knowledge correct condom use attitudes are adapted to prevent disease in daily life. Access to condoms can help solve STDs and unwanted pregnancies.

## POSITIVE COMMUNICATION ABOUT CONDOMS IN NAKHON SI THAMMARAT SECONDARY EDUCATIONAL SERVICE AREA
